EDUCATION

Chandigarh University

Bachelor in Computer Science Engineering

Aug. 2020 – Expected June 2024

Mohali, Punjab

PROJECTS

Type-It-All [React, npm packages, API, Tailwind CSS/UI]

- A **typing speed checking web-app** with a simple one minute test.
- **Integrated an API to fetch** random **paragraph** for the typing test.
- **Increased 80% engagement** on tech twitter and, **created direct impact on users and personalities**.
- Post test completion, the user can share their typing speed(WPM) on Twitter/Facebook.

Solana Shadii [React, Solana Blockchain, Web3.js, Rust, node, API]

- Developed a **blockchain based wedding registry platform**.
- It is currently working on DEVNET which **uses test money(SOL) to send transactions** on blockchain.
- **Minimum data is sent** to blockchain to **reduce the transaction cost**(average cost is **around \$0.2**).
- Have mainly **worked on front-end and blockchain** part as this was a **team project for a Hackathon**.
- Made a **functional and scalable prototype under two weeks**.

Name It [React, Node packages]

- Created is a **project/startup naming web-app** using Reactjs
- It gets 40+ names based on input with the help of an **an open Source library**.
- **Every result card redirects** the user **to google domain site whenever** the card is **clicked**.

SKILLS

Languages : Java, C++, JavaScript, HTML/CSS, MySQL

Frameworks : React, Node.js, Material-UI

Tools : Figma, Notion, VS Code, Git, OBS, Netlify, Postman

EXPERIENCE

Prepbytes

Campus Manager

Feb. 2021 – Aug. 2021

Remote

- **Increased engagement** on Prepbyte's coding challenges and workshops.
- Have **collaborated with a student community** to leverage students with coding and development.
- **Hosted a successful coding contest with 700+ registrations**.
- Engaged with community members and **helped them upgrade their skills**.

ACHIEVEMENTS

Postman Student Expert : Postman Student Experts are proficient in the essential skills involved in building, maintaining, monitoring and testing API requests Postman Workspace.

Monday's Apps challenge - Hackathon Winner : Developed **Monday Dojo**, a learning hub for individuals and teams to build their skills by completing fun and engaging courses.
